The officers of the contest were: President W. E. Bridgers; Secretary, Vivian Blackburn; Marshals, L. G. Cameron, chief; S. P. Gentry, John Williams and Troy Millikan.

The excellent presiding of M. Bridgers and the orations of Messrs. C. Elmer Leak and Hugh P. Leak are worthy of special mention.

A large crowd from Greensboro were in attendance.

## THE DANCE LAST NIGHT.

Given by the Cotillion Club at the Fair Grounds—Hall Lighted by Japanese Lanterns.

The dance given last night at the Exhibit Hall at the Fair Grounds by the Cotillion Club was a most enjoyable affair. The dancing continued until one o'clock and was participated in by about a dozen couples. The party went from the city in carriages, and the horses carrying one of them were balky, causing the gentlemen to alight in the middle of a very muddy road near the coal chute, and assist the animals in their onward progress. They finally reached the Fair Grounds without serious mishap.

The hall was prettily decorated with flags and was lighted by Japanese lanterns. The room, when lighted with the lanterns and filled by the moving forms of the dancers, presented a very pretty appearance. Music was furnished by Mr. Claude Elam's orchestra.

Those who were present were: Mr. and Mrs. Hume, Mr. and Mrs. Bishop, Mrs. and Mrs. G. S. Bradshaw, Misses Jessie Scott, Mabel Glenn, Nora Balsley, Jordan, Bertha Helen, of Winston, Bessie Ballard, Kate Bradshaw, Lizzie Leigh Dick, Bradshaw, Marjorie Lyon. Messrs. Templar Horry, Bernie Gilmer, Harry Sergeant, Vick Sergeant, Ney Forbis, Charlie Forbis, Simpson Schenck, Paul Schenck, Will Turner, Richard Turner, Will McAdoo, Thomas Coffin, Merritt Buchanan, Luke Andrews, Lace Rankin, Jesse Rankin, Jesse Mebane, Giles Mebane, R. D. Douglas, and Roland Hill.

"I suppose you will marry, though when the golden opportunity offers, won't you?"

"It will depend upon how much gold there is in the opportunity."

"He is very pretty and all that, but she is altogether too critical."

"I assure you she never speaks of you but in the kindest way."

"Praps so, but everytime I see her she gives me the impression that my frock doesn't fit!"—Brooklyn Life.

## EX-MAYOR TAYLOR MADE HAPPY.

RECEIVES HANDSOME PRESENT.

CUT GLASS BOWL GIVEN BY FORMER ASSOCIATES.

Old Officials Elected in Clerk, Chief of Police, Attorney and Tax Collector—Changes Made in Police Force—One Man Added to the Force.

The Board of Aldermen met last night at the regular hour. All the members of the Board were present, with Mayor Osborn in the chair. The minutes of the last meeting were read and approved. Alderman Joyner arose and after addressing the mayor, turned to ex-mayor, Z. V. Taylor, saying, "It becomes my pleasant duty to present to you this very small token of the very great esteem in which you are held by the Board of Aldermen who have served the city for the past year, and I feel the inadequacy of words to express our appreciation or your wise guidance through the difficulties which have beset us during those 12 months. And in speaking this I feel that I voice the sentiment of the Board when I say that this small token can but faintly express our lasting friendship for you. And sir, we trust that you will take this to your home, and as bachelors have no home we recommend that you speedily find a maiden worthy of your affections, and establish you a home and take it to it, and in the future years may you see reflected in this cut glass bowl, the faces of those who give it in token of their love and friendship."

Mr. Taylor, in accepting the gift said: "Mr. Mayor, Friends—I, for once, feel utterly unable to voice the emotion that crowds in my bosom. The last twelve months have been the sweetest in my life. I have been engaged in the work I loved, and with friends that have co-operated with me in every way possible. Of the things which have come to me in the past, not one of them has given one-half the pleasure that your action tonight gives. I thank you for it. I say I thank you, I more than thank you, and may God's blessings rest upon you as a body, and as individuals, and on this city which is in your fostering care."

The gift of which Mr. Taylor was the recipient is a handsome piece of cut glass, given by the old Board of Aldermen, the City Attorney, Chief of Police and City Clerk, and is a gift to be proud of.

The regular business of the Board meeting was then taken up by the mayor's introducing Mr. T. J. Murphy, who appeared for a committee from the Young Business Men's Association, recently formed here. Mr. Murphy asked that the Board take some action in regard to asking the next meeting of the State Press Association to be held in this city, and showed some of the good results to be obtained by the meeting of the Association being held here. He stated that the committee he represented had secured subscriptions to the amount of about seventy-five dollars, and that about six hundred dollars would be needed in order to entertain the Association, as had been done in other cities. It was moved that the mayor appoint a committee, of which he should be chairman, to act in connection with the committee already at work, and raise the necessary amount, and that if there should be a deficit that the deficit be made up by the city. Carried, and the mayor appointed Messrs. Joyner, Elam, and Helms.

The mayor announced the election of Mr. F. N. Taylor as chief of the fire department, and Mr. W. R. Pleasants as assistant chief.

Mr. T. E. McCrary appeared before the Board and stated that if the city ever wanted to buy a chandelier for use in the court house, that one could be bought cheaply from the custodian of the post office building. On mo-

tion the matter was referred to the building committee.

The mayor appointed Mr. J. T. Abbott, chief engineer and Mr. Harry Lewis assistant engineer for steamer Co. No. 1.

Motion made and carried that the salaries of the officers of the city be fixed. The offices and the salaries attached are as follows: City Clerk, \$500; Attorney, \$400; Treasurer, \$200; City tax collector, 3 per cent; Chief of Police, \$65 per month; policemen \$45 per month.

Two applications were put in for the position of clerk, Messrs. J. W. Mendenhall and J. S. Michaux. Aldermen Phipps and Ellington were made tellers and a vote was taken which resulted in Mr. Michaux's election by a ballot of 8 to 4.

Mr. A. M. Scales was elected attorney by a unanimous vote, the clerk being instructed to cast the vote of the Board for him.

It was moved that the clerk cast the vote of the Board for Mr. Neil Ellington for Treasurer. Carried.

Moved and carried that the clerk cast the vote of the Board for Mr. R. M. Rees for Tax Collector.

Moved and carried that the clerk cast the vote of the Board for Mr. W. A. Scott for Chief of Police.

When the election of the policemen came up, it was stated that the services of one were required a considerable portion of the time at the depot, and that another man was needed to properly look after the interests of the city, and it was moved that another man be added to the force. In this connection the mayor stated that he had for several years lived in the western portion of the city and had never seen policemen out there except the health officers. To this Mr. Joyner replied that he had no idea that the mayor needed one out his way. Considerable discussion on the question of electing another officer occurred, and a motion was made to add another man. A substitute was made to elect five at this meeting and postpone action on the additional man until later. The substitute was lost by a vote of 7 to 5. The motion was then voted upon, and carried by the same majority.

Applications for police were read from the following: R. C. Whittington, N. A. Lewis, E. McKnight, Geo. P. Crutchfield, R. Y. Skeens, D. R. Causey, J. R. Jeffreys, Arthur Jordan, J. H. Merritt, Flavius Keith, W. C. Weaver, J. L. Montgomery, M. A. Whittington, J. R. Barnes, and A. G. Alexander. The first ballot resulted in the election of the following, Crutchfield, Whittington, Barnes, Jeffreys, and Jordan. Six ballots were then cast to elect another man but no election was made, and it was moved and carried that the election of the additional man be postponed until the next meeting of the Board.

The election of the sanitary officer was then taken up. Two applications has been received, J. L. Montgomery and A. G. Alexander. The name of Mr. W. C. Weaver was also presented. Several ballots were taken without an election, and the fourth ballot being a tie it was voted off by the mayor, giving it to Mr. Weaver. In the presentation of his name before the Board the statement was made that he lived in the West End, and that the presence there of an officer would doubtless have a salutary effect upon the young men who have been trespassing upon the college properties in that section.

Moved that a city engineer be elected. The application of Prof. J. M. Bandy was read asking that the salary be fixed at \$1,200 and stating that if the salary was fixed at that sum, and he should be elected, and his services continue to please the Board, another increase in salary would not be asked for in the next five years. A motion to fix the salary at \$1,000 was lost. After discussion, the salary was fixed at \$1,200, and the clerk was instructed to cast the vote of the Board for Prof. Bandy. It was also moved that his ap-

## W. C. T. U. DEPARTMENT.

This story is told of a German who had just arrived in one of our western States. Seeing the name of Helfendstine over a saloon he read it slowly and painfully thus: "H-el, Hell-f-e-n-d-s-t, fenced-i-n-e, in-Hell fenced in."

### THE DRINK HABIT IN ENGLAND.

The W. C. T. U. work in America seems a little discouraging sometimes when we think of the lot to be done and the comparatively little that has been accomplished, but let us at least be thankful that temperance has not become so prevalent here as in England. Nor is it likely to become so.

An American White Ribboner tells of a sad but interesting experience she had in London recently. One morning as she was hurrying to catch an omnibus she came near upsetting a tiny tot of eight years, carrying a pitcher. Upon investigation she found the vessel to contain ale, "arf bitter and 'arf mild," as the child said for the midday 'evenses, or lunch. It developed that the little maid went after the ale every day and enjoyed drinking it immensely. She said, "I likes to fetch hit, an I sees lots of buys and girls there and talks with 'em, an' gentlemen what gives me a penny to kiss 'em."

After that the lady decided to miss her omnibus and take a walk instead. Within an hour and a half she counted 47 children all under the age of twelve years coming in or leaving the public houses with jugs or pitchers. She went to numbers of the homes and in almost every one found the housewife setting the table and putting bread and cheese and ale on it for lunch. Their homes all reeked with beer and many of the children themselves seemed soaked with it.

At one house she attempted to engage a charwoman, offering to pay her a sixpence a day more than the usual price. The woman quickly asked if she furnished beer to her servants and on being told that she neither furnished nor allowed it to be used in her house the young mother drew herself up, placed her baby on the table, and with her arms akimbo on her hips said: "You won't suit me, ma'am. I refuse your situation."

9n Englishman, well known in the political and literary world, recently pointed to a child with a bottle in one hand and a pitcher of beer in the other and said: "Look you. Can you see there, as I do, the beginning of the decline of the British Empire?"

An old, old bill to prevent the sale of intoxicating drinks to children is again before parliament. Let us earnestly hope that this time it will be passed.

The W. C. T. U., of Philadelphia, Pa., has entered upon an active campaign for the enforcement of the law against pictures and exhibitions of an immoral nature.

Major Sylvester, Chief of Police of Washington, D. C., has decreed that in the future pictures of women in tights shall not be displayed on the bill boards.

### Preachers and Actors.

Boston Advertiser.

The sermon of a Worcester clergyman, who indulged himself in a wholesale abuse of actors, has been more or less widely quoted in this State. Rev. O. E. Mallory probably thought that he was justified in generalizing as he did, but he would probably be one of the first to protest against an evident injustice if an actor should reply by denouncing all clergymen as hypocrites and knaves, merely on the ground that a few clergymen have been found to be such. There are bad actors and good actors, bad plays and good plays, just as there are bad clergymen and good clergymen. Some actors are intemperate. Some clergymen, even in Worcester, are intemperate. There are plays and there are churches which hurt rather than help society.

The work of the church in general, is far better than that of the stage; but to denounce everything connected with the stage as immoral and debasing shows ignorance rather than true piety.

If all man's weak spots were visible you would think he had the measles.

## The Skin AN INDEX TO THE BLOOD

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is provided with certain others which pour out upon it an oily substance, keeping the skin pliable and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly manifests itself upon the skin in the form of sores and ulcers, pimples and various eruptive diseases. By the character of the sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood, the application of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disfiguring blackheads, blotches and irritating, itching eruptions, but improves your general health. S. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the safest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and skin diseases, and you can have the best medical advice without cost. Book on Blood and Skin Diseases free.

## GOOD FOR FARMING.

## Alaska Affords Promising Outlook for the Agriculturist.

Prof. Georgeson, Special Agent of United States Agricultural Department, Says That Grains and Flax Grow Well There.

Prof. C. C. Georgeson, special agent of the United States agricultural department in charge of the experimental station in Alaska, at Sitka, has returned from the north for the purpose of making his annual report to the government. He has proved that Alaska will ultimately be as promising a field for agriculture and stock raising as it is now for mining. He was sent to the north in May, 1898, and his first work was to ascertain what could be produced there in the way of vegetables. He succeeded in raising choice barley and oats. Speaking of his experiments in Alaska, Prof. Georgeson said: "There is not the slightest doubt that grain can be matured almost anywhere in Alaska. I have obtained this year samples of perfectly ripe barley, oats, wheat and rye from several points in the interior as far north as Eagle. These grains were grown and matured there this year. With one exception they were volunteer products from seed accidentally scattered and grown wild. If grains will grow and mature without culture, it stands to reason that they will grow and improve with culture."

"I also grew flax at Sitka the first year. It attained a height of more than three feet, matured seed and produced a fiber of excellent quality. There is no doubt that flax can be made a successful crop in the coast region of Alaska. My instructions the first year were to examine the coast region and reserve lands for experiment stations at suitable places. With this end in view we started a station at Kenai, on the Kenai peninsula, in Cook Inlet. We made a reservation of 320 acres there, some of which has been cleared and has matured grain successfully."

## BIGAMY COMMON IN ITALY.

But Long Waged Conflict Between Church and State Prevents Its Punishment.

For many years the conflict between church and state has rendered bigamy in Italy not only possible, but also easy and not punished by law, says a Rome letter to the Pall Mall Gazette. As the marriage laws now stand only the civil ceremony is legal, but as the church up to the present has refused to recognize this law, the priest has daily performed the marriage service and given the blessing of the church without the civil ceremony. The consequence is that a man so inclined marries one wife at the city hall and another before the priest. Such a state of affairs is so gross a scandal that many projects have been brought before the house to make the civil service before the religious compulsory, with a heavy punishment to any priest breaking this law. However, the effort has always been useless, as either from personal or religious sentiment or for fear of offending their devout supporters the deputies have ever refused to support the bill. This has produced the present absurd situation. It is announced that the holy see, to prevent a man from having two wives, has recommended the parish priests to inquire well into the circumstances and in ordinary cases strongly to advise the couple first to go through the civil marriage, to be followed on the same day, if possible, by the religious one.

## THE BEST REMEDY FOR RHEUMATISM. QUICK RELIEF FROM PAIN.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until I was recommended by Messrs. Geo. F. Parson & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommend it so highly that I thought I would try it. I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." or sale by C. E. Holton, Druggist.

## GLORIOUS NEWS

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils, and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by C. E. Holton, druggists. Guaranteed.

## CAUGHT A DREADFUL COLD.

Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1658 Milwaukee Avenue, Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased."

SATURDAY, MAY 11.

Says the Vicksburg, Miss., Herald:

The (Charlotte) Observer "wonders if this case (that of Mr. Watlington) can be matched in Virginia." Probably not, but it can most, in Mississippi. Some years ago a man was standing near the track of the New Orleans & Northwestern waiting for a train to pass. As it drew near, a pine woods bull, trying to cross in front of the engine, was caught on the cow catcher and hurled sixty feet against the man. The point of one of the bull's horns struck him squarely in the forehead, producing instant death. The widow of the deceased sued the railroad and recovered damages, though not as much as she would, had not her lawyer been beguiled into a compromise for \$1,500, after the case was given to the jury. A minute after the agreement had been settled on by the counsel for the two sides, the jury came in with a verdict of \$5,000.

And we wonder when these pestry newspapers are going to cease to drag the name of our friend, Major Watlington, into this miserable publicity which he has repeatedly protested against. The Telegram felt that the Major was being slandered when the story that he had been engaged in the laborious occupation of hunting was being published by so many of our thoughtless contemporaries, and it took the trouble to refute the charge. Will the Major's fair reputation be allowed to rest in peace?

## REGULAR AND VOLUNTEER.

## Some Striking Contrasts in the Records of Two Brigadier Generals, U. S. A.

New York Press.

The difference between the road of the popular hero and the faithful military servant to the same point is illustrated by the arrival of Col. George S. Gillespie, U. S. A., at the rank of brigadier-general, reached a little earlier by Gen. Frederick Funston, U. S. V.

When Aguinaldo's captor was in his cradle the new chief of engineers was laying the pontoon bridge at Fredericksburg, perhaps the most heroic service that the staff of any army was ever called upon to do for the line. When "Scrapping Fred" was just beginning to war upon his nurse-maid, his regular co-equal in present rank was earning the medal of honor by carrying a message from Sheridan to Meade and back again through the rebel lines. Bravery of the Funston order was not the first of his soldierly attributes, for at twenty-four he was chief of engineers of the army of the Shenandoah, a larger force than has operated in the Philippines. After supervising government river and harbor works costing ten of millions of dollars, the new regular brigadier has crowned his career in peace with the laying out of the fortifications of New York harbor, the greatest piece of defensive engineering of modern times. Incidentally he has had charge for years of the meandering channel of the Mississippi river. He will retire as brigadier general in 1905. His volunteer comrade will go out twenty years later as major general, in command of a department, and possibly lieutenant general, in command of the army.

## The Baptist Convention.

New Orleans, May 10.—The forty-sixth annual convention of the Southern Baptist Association opened today. Prayer was offered by Hon. Josiah Lovering, of Baltimore. Nearly 1,500 delegates were present, among them Governor W. W. Heard, of Louisiana, and Governor A. H. Longino, of Mississippi. The convention elected the following officers by acclamation: President, Former Governor W. J. Northen of Georgia; secretary, Lansing Burrows, of Nashville, and O. G. Gregory, of Baltimore; vice presidents, Governor W. W. Heard, of Louisiana; Governor A. H. Longino, of Mississippi; ex-Governor J. P. Eagle, of Arkansas, and Rev. T. T. Eaton, of Louisville.

Secret sessions are held daily by the Brotherhood of Railroad Trainmen in convention at Milwaukee, Wis.

## Her Last Session at College.

By J. M. Wolfe.

Come all ye love-sick girls and boys, And help me sing my farewell song, Let's shake the hills with joyful noise, And loud our choral strains prolong, Commencement time, that happy time, For girls and boys will be here soon, Which often is a theme for rhyme, Will be forgot by me in June.

How slow the passing moments fly, While we are caged in Tyrant's school, Like felons watched we know not why, Which almost makes us say "Old Fools."

No, no, it don't; What did I say? I let my mouth go off too soon; This morning I forgot to pray, My mind was on the first of June.

Why should they keep us penned up here?

Why not let Jimmie visit me? Papa and Ma I know won't care; The reason then, no one can see.

But never mind, 'twill all be right, Commencement day will be here soon, I'll walk with Jimmie by moonlight, Before the second day in June.

My dresses, Oh, they fit so nice; My shoes, I thing are Number two; My hat, Pa does not like the price, I think its cheap, Gertrude, don't you?

Oh, how I wish that time would fly, At night I sit and watch the moon; Sometimes I cannot help but cry, It seems so long till first of June.

Jimmie and I are now engaged, Papa and Ma say I'm too young To think of marriage at my age, Which almost makes me bite my tongue.

Others have married young as I; If nothing happens I'll be soon; So now, you know the reason why I long to see the first of June, Greensboro, N. C., May 11.

"Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. I quickly secured a bottle of One Minute Cough Cure, giving her three doses. The croup was mastered and our little darling speedily recovered," so writes A. L. Spafford, Chester, Mich.

## MASONIC MEETING NEXT WEEK

AN ENTERTAINMENT TO BE GIVEN THEM AT THE NORMAL.

The Knights Templar Parade to be in Full Uniform—Sessions of the Shrine to be Held in the K. of P. Hall.

The Grand Chapter of North Carolina will meet in the Masonic hall on Tuesday evening, the fourteenth, and will continue in session until Wednesday evening. The Grand Commandery of North Carolina will begin its session at eight o'clock Wednesday night and will continue in session until Thursday evening when the parade of Knights Templar will take place at three o'clock in full uniform, marching to the State Normal College, where the young ladies have prepared an entertainment for their benefit.

The Shrine of the Carolinas will hold their session on Thursday evening the sixteenth in the K. of P. Hall and the Shriner's banquet will be served at the Hufines Hotel as soon as the session is over. This will be about twelve o'clock.

### PROF. HOBBS MAYOR.

Result of the Municipal Election at Guilford College.

At the close of each base ball season, it is the custom of the Guilford College Athletic Association to designate the first team for the College, by allowing them to wear on their shirts, a "G". The members of the other ball teams may wear "G. C." but only the first team may wear but the one letter. Those who were fortunate this year are, Hammond, Catcher; Lewis, Cameron, Pitcher; Almond Shepherd, First base; Charlie Short, Second base; Charles Morton Short Stop; Finley Horney, Third base; T. B. Hinton, left field and Manager; Harry Daniels, Centre field; Foy Cameron, Right field; Substitutes, Horner Ragan and Wil-Glascock.

At the election recently held in the municipality of Guilford College, the following officials were elected: Mayor President L. L. Hobbs; Aldermen, Prof. T. G. Pearson, Mr. C. S. McKnight, and Prof. Geo. W. White. This municipality embraces only the college campus and a little outlying territory, and it was incorporated because it would be of some benefit to the officials of the college in the administration of their affairs.

### THE STORM YESTERDAY.

Lightning Strikes Tree at Guilford—Fruit Damaged at Jamestown—No Hail at Oak Ridge.

The hailstorm which passed over Greensboro yesterday did but little damage in the city. At Guilford College, the hail stones were large and a number of window panes were broken out. The lightning also visited that place striking a tree in the campus about a hundred feet from the school building. The lightning also visited South Greensboro striking the steeple of Centenary church and running down to the brick wall. A person who believes in signs remarked that the people of Centenary were beginning to build in good season.

A report comes from Jamestown that the hail storm there was also hard and that the roads were covered with the hail stones this morning. While this is, of course, an exaggeration, considerable damage was done there, and the fruit crop more or less injured. In the city a number of phones were burned out by the lightning and several firms cannot talk today as a result.

A report from Oak Ridge says that no hail fell at that place at all.

### NEW KEEPER FOR JAIL.

Mr. S. B. Rees Resigns—His Successor to be Mr. C. F. Neeley, of Pleasant Garden.

Mr. S. B. Rees, who for some time has been keeper of the Guilford jail, has resigned his position, his resignation to take effect the first of next month. He will be succeeded by Mr. C. F. Neeley, of Pleasant Garden. Mr. Neeley at present is acting as guard at the jail.

Hard hearts are apt to grow harder, and soft heads to grow softer.

### GEN. RANSOM AT NORMAL.

Addresses the Student Body. The State Proud of the Normal College.

Gen. Matt Ransom spoke to the student body of the Normal College yesterday afternoon at 4:30 o'clock. The students of the institution had intended to attend the exercises at the Banner warehouse yesterday morning, but were prevented by reason of the rain, and in view of that fact the General consented to address them at the Normal. He spoke of the inspiration the sight of the four hundred young ladies assembled there gave him, and of the opportunities that lay in their power. "The State," said he, "is proud of the Normal College."

A portion of his speech was devoted to the giving of wholesome advice to the young ladies, and in closing he eulogized the girls who give their lives to the noble calling of becoming teachers. General Ransom left this morning on his return home.

### NO SALARY FOR MAYOR.

He is Serving for Glory—How it Occurred.

The Board of Aldermen last night were so busy arranging the salaries to be paid the city officials, and in electing them that they completely overlooked the fact that the Mayor's salary had to be fixed as well, and at present Mayor Osborn is serving the city for glory. The omission of this necessary action was not discovered until this morning. Of course it will be remedied at the next meeting of the Aldermen, but it is a joke on that body all the same.

### TO BE HELD THE 15TH.

The Date for the Races Again Changed.

On account of the rain yesterday the races were postponed, to the 15th. This date was later found to be a little inconvenient, and was changed to Wednesday the fifteenth. At this time the Grand Commandery of North Carolina will be in session in the city.

Several good horses will be here and if the weather is propitious the racing will be excellent. Reduced rates will be in effect on all railroads on account of the Masonic meeting. The tickets already purchased for the races to have been held yesterday will be good on the fifteenth.

### Piano Recital.

Quite a number of music lovers braved the inclement weather last evening to attend a musicale given at the residence of the Misses Caldwell, on Ashe street, where Miss Doub has had her studio for two years.

The program was very pleasingly rendered by fifteen pupils of Miss Doub's class, whose playing manifested the careful training of their faithful teacher. The program is reproduced:

#### PART I.

Faust Waltz. C. W. Landon—Linda Hendrix.

Duet. Come Dance With Me. Webb—Kate and Linda Allen.

In Playtime. Waddington—Ila Brower.

Trio. Overture. Mendelssohn—Misses Hendrix and Doub.

Mennetto. Moter—Fleida Johnson.

Duet. Dance Styrienne. Michiels—Misses Porter and Doub.

Polonaise. Spindler—Helen Buck.

Teasing. Von Wilm—Verona Fries.

Cervona. Moore—Alice Callum.

(a) Song of Bathers. Wachs. (b) An Autumn Fantasia. Von Blon—Linda Hendrix.

It may require practice to make perfect in some cases, but the first time a man picks up a hot plate he can drop it just as gracefully as though he had practiced it for months.

### Wants the Press Convention.

Learning this morning that the Board of Aldermen had appointed a committee to co-operate with a like committee in extending an invitation to the North Carolina Press Association to meet in Greensboro this year, a gentleman said: "I hope the joint committee will extend such a pressing invitation that the editors cannot refuse to hold their convention in our city. It has been six or seven years since the press convention met in Greensboro, and since that time the city has enjoyed a phenomenal growth. It will be a big help to us to have the newspapers come back and note the advancement we have made. I know of nothing that would be a bigger advertisement for the city. For one, I am willing to contribute to the entertainment of the editors if they will come."

### To Install a New Lodge.

A party from this city left on the morning train for Salisbury to assist in the installation there tonight of a new lodge of Elks. Another party left at noon to witness the fun. Among those who went this morning were Capt. Williams and Mrs. Julian Price, of the Southern Railway, and Dr. Chas. L. Scott.

### SHORT LOCALS.

An expressman says that old maids are uncalled for packages.

Mr. W. W. Wood returned at noon from spending several days in Charlotte.

Judge W. H. Eller has returned to his rooms in the Southern Loan & Trust Company building, and will sell pianos there in the future.

Rev. C. E. Hodgins, pastor of Westminster church, and Rev. H. K. Boyer, pastor of Centenary church, will exchange pulpits at the morning service tomorrow.

Bob Harris, colored, was locked up this morning by Deputy Sheriff Weatherly. He was out under bond for fighting, and his bondsman refused to stand for him longer.

### THE WEATHER.

For North Carolina—Fair tonight and Sunday fresh west winds.

Greensboro—Highest temperature past twenty-four hours ending eight o'clock this morning 64, lowest 50, rainfall 1.29.

### Stock Exchange Closed.

By Wire to The Telegram.

New York, May 11—Stock exchange closed today, even the curb brokers have suspended operations. The brokers are busy fixing up accounts. It is expected that a majority of the banking houses will be kept busy tonight and tomorrow untangling the mix up of the past few days.

A true woman never attempts to drive nails with a hammer if there's a hair brush handy.

### Gum Pickers at Work

Country Gentleman. Picking spruce gum and selling it to chewing gum makers is a source of income for a great many men in the Adirondacks and other Northern forests—guides and small farmers—while others make it a business the year around. The gum appears on the tree trunks like drops of wax. The gatherer, armed with a long pole, on the end of which is fastened a can and a sharp chisel, cuts loose the chunks of gum, which fall into the can and are transferred to a basket or bag. The gatherers in winter will travel on snowshoes ten or fifteen miles through the forest, sleeping at night in some old hunter's deserted shack. There are three kinds of spruce in the Adirondacks—red, black and white. The best gum is gathered from the sapwood of the white spruce. The rarest of the gum is the "blister," which is translucent, and turns blue after being chewed. After being scraped, washed and brightened, it sells for \$1.50 a pound. There is a coarser grade, composed of blister scrapings, mixed with particles of bark. Placed on trays of cotton cloth in a steam tank, the gum is drawn out, and yields the producer 50 cents a pound, forming the ordinary chewing gum of commerce. Some manufacturers adulterate the gum with paraffin, rosin and chiclo.

### Causes of the Financial Earthquake.

Baltimore Sun.

1. The Morgan-Hill interests, controlling James J. Hill's railroad, the Great Northern, and also the Northern Pacific, began to move to secure control of the Burlington.

2. The directors of the Burlington voted to recommend the sale to the Morgan-Hill interests.

3. The Harriman and Kuhn, Loeb & Co. in terests, which had been buying Union Pacific stock on a large scale, were alarmed at the prospect of the Burlington deal being harmful to the Union Pacific and set about to prevent it. They tried to do this by acquiring enough stock of the Northern Pacific to make ratification of the deal impossible.

4. The Morgan-Hill interests, seeing the move of their rivals, held to their Northern Pacific stock tightly to prevent Harriman and Kuhn, Loeb & Co. from getting it.

5. When the Harriman and Kuhn, Loeb & Co. interests bought all the Northern Pacific stock they could get the price began to rise rapidly. Soon little of the stock was left outside the control of the great financiers who were trying to absorb it.

6. In this battle of the giants James R. Keene, who is called the shrewdest speculator in Wall Street, saw his chance. It is said that he sent out his agents and bought up most of the floating stock. Brokers who were caught short by the resulting "corner" made frantic efforts to secure stock. They bid it up to enormous figures and offered as much as \$8,500 for the loan of \$10,000 of the stock for 24 hours, in order that they might meet their contracts.

Thus the stock rose to the extraordinary figure of \$1,000 a share. It dropped back to \$300 when J. P. Morgan & Co. and Kuhn, Loeb & Co. eased the situation by announcing that settlements would not be made with the shorts at yesterday's fancy quotations, but at what would generally be considered a fair price. The shorts will now have to get out of their predicament at the terms offered by these two houses, which are said to be \$150 a share.

The Morgan-Hill interests claim to have held onto enough of the stock to push through the Burlington deal. The Harriman and Kuhn, Loeb & Co. interests claim to have enough to block the deal.

The variations in the price of shares do not represent changes in the actual value of the property, but merely the phases of the situation created by the battle of the financial moguls for control.

The general stock market, rendered extremely sensitive by overspeculation, reacted. Speculators' margins were wiped out and brokers had to sell the securities placed with them as collateral to save themselves from loss. This added to the weight of the selling and many values shrank fast.

The only instance on record when a postoffice has been named after a patent medicine, was last year, when in Wetzel county, W. It had given such satisfactory results that the name was unanimously selected by the people for the new office and adopted by the department at Washington, D. C.

### HERE TO STAY.

Dr. W. G. Browne, the well known practical and scientific optician, who on professional visits here during the past 16 years, has given entire satisfaction to his numerous patrons, has fitted up an optical parlor in the Wright building opposite the court house, where he will be found during business hours, from 9 a. m. to 6 p. m. and at any time at Hotel Clegg to attend special calls.

Eyes carefully examined and fitted with up-to-date spectacles and eye glasses. All work guaranteed.

### Women are Like Flowers.

Healthy and strong and bloom. Sickly, they wither and die. Every woman ought to look well and feel well. It's her right and duty, but she might as well try to put out a fire with oil as to be healthy and attractive with disease corroding the organs that make her a woman. Upon their health depends her health. If there is inflammation or weakening drains or suffering at the monthly period, attend to it at once. Don't delay. You're one step nearer the grave every day you put it off. Women can stand a great deal, but they cannot live forever with disease dragging at the most delicate and vital organs in their body. You may have been deceived in so-called cures. We don't see how you could help it—there is so much worthless stuff on the market. But you won't be disappointed in Bradfield's Female Regulator. We believe it is the one medicine on earth for women's ills. There is as much difference between it and other so-called remedies as there is between right and wrong. Bradfield's Female Regulator soothes the pain, stops the drains, promotes regularity, strengthens, purifies and cleanses. It does all this quickly and easily and naturally. It is for women alone to decide whether they will be healthy or sick. Bradfield's Regulator lies at hand. \$1 per bottle at drug store.

THE BRADFIELD REGULATOR CO., Atlanta, Ga.

If people only knew what we know about Kodol Dyspepsia Cure, it would be used in nearly every household, as there are few people who do not suffer from a feeling of fullness after eating, belching, flatulence, sour stomach or waterbrash, caused by indigestion or dyspepsia. A preparation such as Kodol Dyspepsia Cure, which, with no aid from the stomach, will digest your food, certainly can't help but do you good.

HOWARD GARDNER.

### HE FOOLED THE SURGEONS.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile cure on earth, and the best salve in the world. 25c a box. Sold by C. E. Holton, druggist.

### A LIFE AND DEATH FIGHT.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death says. "Exposure after measles induced serious lung trouble, which ended in Consumption. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat Chest and Lung troubles." Regular size 50c and \$1. Trial bottles free at C. E. Holton's drug store.

### THE BEST BLOOD PURIFIER.

The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier. Price, 25 cents. Samples free at C. E. Holton's drug store.

If troubled with a weak digestion, loss of appetite, or constipation, try a few doses of Chamberlain's Stomach and Liver Tablets. Every box warranted. For sale by C. E. Holton, Druggist.

## Tired

that's all. No energy, no vim, no vigor, no ambition. The head aches, thoughts are confused, memory fails. Life becomes a round of work but half accomplished, of eating that does not nourish, of sleep that fails to refresh and of resting that never rests. That's the beginning of nervous prostration.

"I was very nervous and so tired and exhausted that I could not do my work. One dose of Dr. Miles' Nervine quieted my nerves and drove away the lassitude. Seven bottles did wonders in restoring my health."  
Mrs. M. E. Lacy, Fortville, Ind.

## RECORD OF DISASTERS

## Terrible Things That Have Happened in the Last Century.

## Earthquakes, Famine and Floods Have Made Their Mark in Horrible Figures Upon the Pages of History.

The nineteenth century has made an ineffaceable mark upon the world. The march of progress in civilization, in invention and in science has been rapid, and future generations will yield acknowledgment to the fact. The age of romance has not left greater impression upon the literary and military history of the globe than will the century just closed upon the general advancement of the human race. This very advancement has, however, multiplied the dangers which accrue to humanity, since greater civilization has added perils peculiarly its own to those which already existed, says the Philadelphia North American.

The nineteenth century has been particularly unfortunate in disasters which in their very magnitude have appalled the entire human race. Earthquakes have cost the lives of thousands in various countries of the civilized globe, and famine, tidal waves, fires and floods have added horrors to the smaller disasters, while death by shipwreck or railway accident has become a familiar terror.

Some of the most disastrous earthquakes of the century have been the one which befell India in 1819, when 2,000 persons were killed; the one which caused a loss of 6,000 lives in Canton, China, in 1830; that which buried 1,000 persons in Calabria in the year 1835, and the one in 1842, when 5,000 were killed in San Domingo. More frightful still was the earthquake in southern Italy, when 14,000 perished, and the one in which 10,000 residents of Calabria lost their lives in 1857. Two years later, in Quito, there were 5,000 deaths from the same cause; in 1860 there were 7,000 in South America, and in Manila, in 1863, 1,000.

Indeed, the '60s were particularly prolific in deaths by earthquakes, for in '67 1,000 lives were lost in Mitylene, and in 1866, in Arequipa and that district, there was a total of 25,000. The next appalling disaster of the kind was in San Jose, Colombia, in 1875, when no less than 14,000 died.

In 1870 there were 4,000 deaths in 1881, and in 1883, in Cassamicola, 9,990 were killed. With 1887 came the well-remembered horror in Charleston, S. C., when only 45 lives were lost, but \$5,000,000 worth of property was destroyed. In Japan, in 1891, 5,000 died and 3,000 were injured. In 1837 came the first great famine of the century, that of India. It was followed by the great famine which devastated Ireland nine years later, while in 1860, '65, '68, '76, '97 and '99, respectively, India was again laid waste by far-reaching famine.

Nor did these vast tragedies finish the list of widespread disaster in the century. In 1871 the great fire almost wiped out the Chicago of that day, and in 1889 the breaking of the Conemaugh dam destroyed the flourishing municipality of Johnstown. In the same year a tidal wave in Japan swept away 50,000 houses and killed 2,419 persons, while the similar disaster in Galveston in September, 1900, is too fresh in the public mind to require mention.

**Samoa's Native Woman Surgeon.**  
A surgeon of the United States navy has discovered a colonial "new" woman, the odd accomplishments of

whom are set forth in the report of the surgeon general. This woman dwells at Faga-Toga, a village on a harbor in Samoa, where a United States coaling station is located. She is a doctor. Her medical education consists of such knowledge as she has been able to pick up from a United States dispensary and from naval surgeons who have visited the harbor. Her practice among the natives is extensive and very successful. She keeps the commoner sort of drugs and compounds her own prescriptions. But the truly amazing features of her success have been realized in surgery. The United States naval surgeon describing these says: "I have seen several fractures she has reduced and treated with very good results. Two amputations that she has performed, one of the arm and one of the forearm, have come under my observation, and the results are very good. She had native assistants, operated without an anaesthetic, and the only instruments she had were a hand saw and a razor."—Harper's Bazar.

## A Snake at Church.

During the revival services in the United Brethren church in Shiltenburg, Pa., a snake was discovered crawling over the floor under the seats. One lady noticed something moving over her shoe and in a few moments felt it passing over the other. When she found it was a snake she jumped on the seat, and the church, which was crowded, was thrown into confusion. The ladies stood on the seats while the men tried to capture the reptile, which raced backward and forward through the church in its efforts to escape. After it was captured the services were resumed.—N. Y. Sun.

**Chinese Belle's Costumes.**  
A Chinese belle on special occasions will entirely bedaub her face with white paint, adding rouge to the lips and cheeks in such profusion that she looks more like a painted mask than anything human. Her eyebrows are blackened with charred sticks, and arched or narrowed in accordance with her idea of beauty.—N. Y. Sun.

Prof. J. W. Tyrell, the celebrated explorer of Canadian wilds, has returned from an expedition through the barren lands of northern Canada. He traveled over 5,000 miles on the tour. His expedition, which was sent out by the Canadian government, met with many perils in the long journey to the northwest of Hudson bay.

Prof. Tyrell made the important discovery that the barren lands generally supposed to be treeless prairie were covered in many places with rich northern forests and there were stretches of timber land 200 miles in extent.

In August Prof. J. W. Bell, of the geological survey, who was second in command of the expedition, went on a side tour of 500 miles up one of the branches of the Thelon. There he rescued an Englishman named Charles Bunn, who had been held in captivity by the Eskimos for five years. Prof. Bell was in the lead of the party when they entered a village just before nightfall and was amazed to see a tall, well built man, dressed like an Eskimo, come running up and address him in English. Bunn told a marvelous story. He said that he had gone out from Edmonton in 1896 and had wandered far into the interior, shooting and trapping. He ran short of provisions and applied to an Eskimo family. They took him to their village, where he was compelled to remain, living as one of them. He had several thousand dollars' worth of fur. He joined Bell's party and came out to Edmonton with the explorers.

## FOR OLD AGE

To the old, as to babies, the even balance of health is more important than anything else in the world. The possible health, in age, is not high and strong; it is only even.

There is no end, but death, to the trouble that comes of its loss.

It ought to be watched like a baby's.

Their future is short; but oh how it turns on comfort! on whether the wrinkles are wrinkles of pain or of long serene enjoyment!

plication be filed with the minutes of  
the Board as a condition of his elec-  
tion. Carried.

Alderman Joyner stated that the  
street force were now at work on  
Spring Garden street, and that he had  
seen the property owners on that street  
from Mendenhall street to the corpor-  
ate limits, and that, with the exception  
of one man, they were all willing to  
donate to the city sufficient ground to  
make the street sixty feet wide, and  
that as the curbing had not yet been  
put down, that now was the time to  
have the work done, and that it would  
improve the appearance of the prop-  
erty in that section of the city fifty  
per cent. It was moved that if the  
right of way was to cost the city noth-  
ing, that the street be widened. Car-  
ried.

Mr. E. G. West filed an application  
to retail liquors at No. 340 South Elm  
street. This stand at present is oc-  
cupied by a candy store, and adjoins  
McDuffie's furniture store. Under the  
rule the application went over two  
weeks.

Moved and carried that the board  
meet on the second and fourth Fri-  
days of each month, the hour of meet-  
ing to be the same as heretofore.

The application of Mr. John W. Bar-  
ker was brought up, and after discus-  
sion it was moved that the application  
go over to the next meeting. Car-  
ried.

Moved that the present committees  
be continued with full power to act  
until the mayor appointed committees  
to succeed them. Carried.

Moved and carried that the Board  
adjourn.

### Gay Deceivers.

London Sketch.

I heard a capital story about Ameri-  
can women and their boots a day or  
two ago: it appears that they are very  
anxious that people should fancy that  
they have small feet, and that they do  
not like to put their shoes outside their  
doors at hotels, for fear that their nei-  
ghbors passing along the corridors  
should make remarks about the size  
of their footgear. So they keep a pair  
of shoes several sizes too small for  
them, and, after carefully putting a  
few specks of mud or a little dust on  
them leave them outside the door for  
other women to envy their small size.  
The shoes which they have been wear-  
ing they clean themselves and never  
trust to the hotel porter. In this way  
many humor their feet and their van-  
ity at the same time, and all parties  
are, or should be, satisfied. It is an  
ingenious idea, and that is how it is  
done.

An apt quotation is sometimes better  
than an original remark.

Probably the best housekeeping plan  
is not to mortgage the house.

Some men are so mean that you  
can flatter them by sticking up your  
nose at their wives.

There are some men that the only  
way you can keep away from is by  
asking them to lend you money.

Correct and up-to-date
